Message body

Dave

This email provides Region 3 concurrence to your plan changes.

Mark Schroeder, Region 3 Chairman

On Jun 1, 2011, at 10:45, David Buchanan <davidg_bu@yahoo.com> wrote:

Mark I will need a reply from you concurring to send to the FCC.
Thanks.

Subject: RE: Fwd: Change in Allotments for Region 5 700 MHz

Mark,

Looks good to me too. As indicated, all of the proposed changes are far from the AZ-CA border.

John

Mark,

I have looked at them and I do not see any problems.

Thank You,

John and Stuart. Could we get a review of this change next week to see if we have a concurrence for them? Please let me know if there is a call.

-Mark

Subject: Change in Allotments for Region 5 700 MHz

Reply-To: David Buchanan <davidg_bu@yahoo.com>

Hi All - We are proposing to make a few additions and changes to the channel allotments in the Region 5 plan. There are new allotments to the Port of Los Angeles and a move of an Allotment for the City of San Diego to resolve a interference issue from a new Riverside County site in the SW corner of Riverside County. The allotments will be licensed for an area of operations well over 100 miles from any of the Region 5 borders but I need concurrence from the adjacent Regions for FCC approval.

Please let me know of any concerns or Reply to this email with your concurrence.

Attached is the new proposed list for Region 5. Changes are highlighted in yellow.
